BINEESH THOMAS SHAJI

PROFESSIONAL SUMMARY

Cybersecurity is not just my profession; it is my passion. With a strong foundation in cyber forensics and Security Operations Center (SOC) operations, I specialize in identifying threats and safeguarding digital landscapes. My hands-on experience in cybercrime investigations, gained through an internship with the Kerala Police Department, has sharpened my ability to analyze digital evidence and respond to incidents effectively. As a Certified SOC Analyst, I bring expertise in SIEM, threat detection, and incident response, helping organizations proactively mitigate cyber threats. I am eager to contribute to a cybersecurity strategy that strengthens organizational resilience.

EDUCATION

B.Sc. in Cyber Forensics – Mahatma Gandhi University	2024
Higher Secondary Certificate – IHRD Technical HSS	2021
Secondary School Certificate – Kendriya Vidyalaya	2019

INTERNSHIP EXPERIENCE

Prodigy InfoTech | Cybersecurity Intern | Remote

| Oct 2024

Worked on security projects, focusing on encryption, password security, and keylogging detection.

Kerala Police Department |

| May 2023

Cyber Police Station & Cybercell, Forensic Dept., Fingerprint Bureau | Pathanamthitta Kerala Conducted cyber awareness programs for law enforcement agencies.

Assisted in investigating cybercrimes, including digital forensic analysis.

Gained hands-on experience in cybercrime investigation techniques.

PROJECTS

- Caesar Cipher Program Implemented encryption and decryption
- Image Encryption & Decryption Developed security model for images
- Password Strength Checker Built tool to assess and enhance password security
- **Simple Keylogger** Designed a program for monitoring keystrokes

CERTIFICATIONS

•	Certified IT Infrastructure & Cyber SOC Analyst (CICSA v3) – RedTeam Hacker Academy	Jan 2025
•	Certified SOC Analyst (CSA v1) – EC-Council	Jan 2025
•	Mastercard Cybersecurity Job Simulation – Forage	Jan 2025
•	IBM Cybersecurity Foundation Course – IBM	Nov 2024
•	Essentials of Ethical Hacking – RedTeam Hacker Academy	Aug 2024
•	Ethical Hacking Associate – RedTeam Hacker Academy	May 2024

SKILLS

- Cybersecurity & Threat Intelligence: SOC operations, log analysis, threat hunting
- Network Security & Penetration Testing: Vulnerability assessment, network traffic analysis
- Digital Forensics & Cybercrime Investigation: Incident response, forensic analysis
- SIEM Tools & Security Platforms: Splunk

ADDITIONAL INFORMATION

Fluent in English, Malayalam, and Hindi.

Enthusiastic about SOC operations, ethical hacking, and cybersecurity research.
